

John Pease rides, recommends and retails Yamaha — the dual purpose machines.

All Yamaha's trail bikes are dual purpose machines. From the DT100 through the popular 125, 175 and 250 to the DT400 each Yamaha is designed to take the rough with the smooth on green lane and road alike. We've even added the 4 stroke XT500 for the big single cylinder enthusiasts. Tough Yamaha motocross

type frames and "torque induction" engines ensure optimum performance whatever the conditions. So make the grade to a Yamaha trail bike soon; you won't regret it, ask John Pease (British International Six Day Trial Team Member on 8 occasions) or any one of Yamaha's 500 plus dealers.
