YAMAHA TRAIL 125 MODEL AT-1

Your introduction to the great sport of cross-country riding.

Meet the new Yamaha AT-1, an exciting 125cc trail machine that follows in the footsteps of Yamaha's unchallenged DT-1.

Lighter and easier to handle, the AT-1 is ideal for the rider who is just entering the fun-filled world of cross-country riding.

The heart of this machine is a newly developed aluminum single cylinder engine that features Yamaha's famed 5-port design. It is kept running cool and clean with the Autolube automatic oil injection system.

Rugged trail features include all of those proved best by the larger DT-1: special front forks that smooth out the roughest trail, rugged 5-speed transmission for power as you need it, separate tachometer and speedometer instruments.

NEW STANDARDS IN SAFETY
 Sure-gripping trail tires, water and dust-proof brakes, and large head and tail lights are all standard.

RUGGED TRAIL FEATURES
 These include a sturdy lightweight frame, special travel forks, engine guard, a maximum amount of ground clearance, a large non-slip seat, and separate tachometer and speedometer instruments.

5-PORT ENGINE
 The additional port, in the aluminum single cylinder engine used by the AT-1, delivers an overall 10-percent increase in power. Peak performance is assured by the Yamaha Autolube automatic lubrication system.
