

The great mini machine.

They say the best things
come in small packages.
A Yamaha mini proves it.
They're built like
the big Enduros,
for kids who won't settle
for putt-putts.

Now Yamaha makes two mini's:
The JT2L-Mini Enduro
with street-legal features
and the snappy JT2-Mini MX,
for off-road riding.
Both bikes are built tough
like the big Enduros,
with full 15-inch spoke wheels,
60cc rotary-valve engine,
Autolube oil injection,
sure-stop brakes
and a 4-speed constant mesh gearbox.
They're both safety engineered
from the ground up.
You and your Dad
should look them over.
They're ready and rarin' to go
at your Yamaha dealer.

YAMAHA  **The great machines for '72.**
