

New from Yamaha.

**The first Australian farm bike designed,
engineered and trail proven on Australian
properties like yours.**

Yamaha AG100 Farm Bike.

Before we'd release our new YAM AG100 Farm Bike we put it down on the farm and into every conceivable farm situation.

Stock round-ups. Stray chase downs. Across sandy scrubs. Rocky plains. Grassy fields. Dusty roads. Treacherous bogs. Steep 30 degree inclines. It even had to get the official sanction of Blacky the sheep dog.

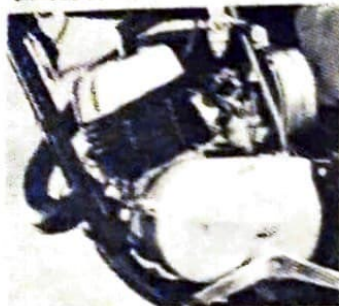

We handed out punishment of the kind even you would never dare give a machine. And, when something couldn't take it, we replaced it. Then put it through the mill again until we knew it to be right. The result? A true blue machine befitting the Yamaha tradition of excellence and the title "AG Bike". The Yamaha AG100 AG Bike. Born from the country it conquers.

7 PORT TORQUE INDUCTION

The most advanced two-stroke engine ever developed. Exclusive torque induction gives stronger low range torque and better fuel consumption.

DOUBLE CRADLE FRAME

The most rugged frame design for off-road conditions.

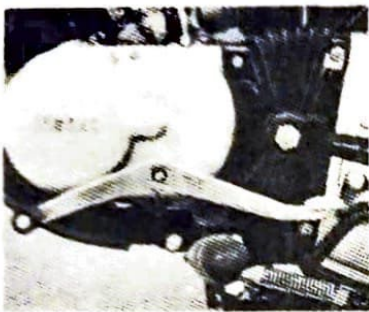

BIG SIDE STAND

Extra wide for stability on muddy or soft surfaces.

5 SPEED GEARBOX

Extra low range first gear for the toughest terrain. Four others for hill climbing to highway cruising.

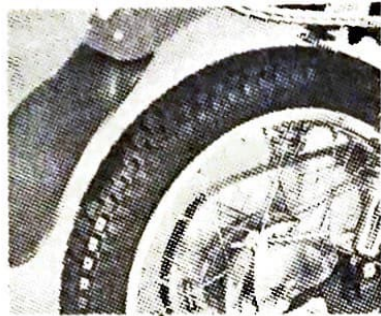

TRAIL TYRES

Knobby trail tyres for maximum traction and longest wear.

MUD FLAPS

Front and rear to reduce flying mud and rocks.

ADJUSTABLE SHOCK ABSORBERS

Adjustable in five steps to cope with all types of terrain.

FULL CHAIN GUARD

Completely protects the chain from being fouled by mud or damaged by flying stones.

ENGINE GUARD PLATE

Provides strong protection against rocks and stumps.

EXHAUST PIPE PROTECTOR

Prevents flying rocks from damaging the exhaust pipe.

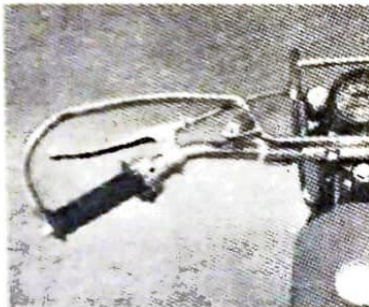

ENDURO FRONT FORKS

Absorbs the vibration before it reaches your hands.

WATER AND DUST PROOF BRAKES

Both brakes are designed to operate under extreme conditions.

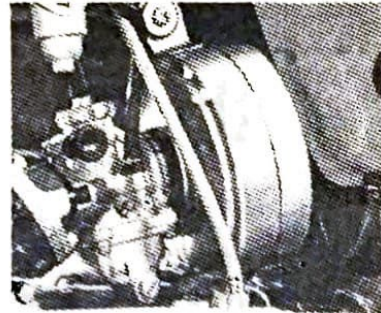

LEVER GUARDS

Protect hands and clutch or brake levers from branches and undergrowth.

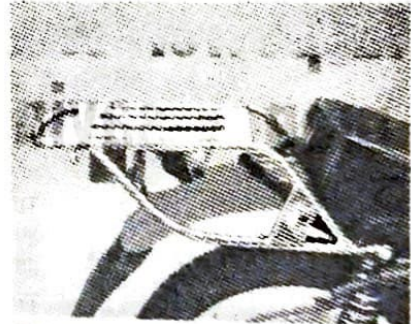

LARGE CONTROLS

Built bigger and tougher to take the roughest use.

AIR CLEANER

Incorporates a double air filter for extra protection from dust and mud.

BIG CARRIER

Big and strong enough to carry anything from a chainsaw to a sheep dog.

BIG SEAT

Big and tough, designed for big men.

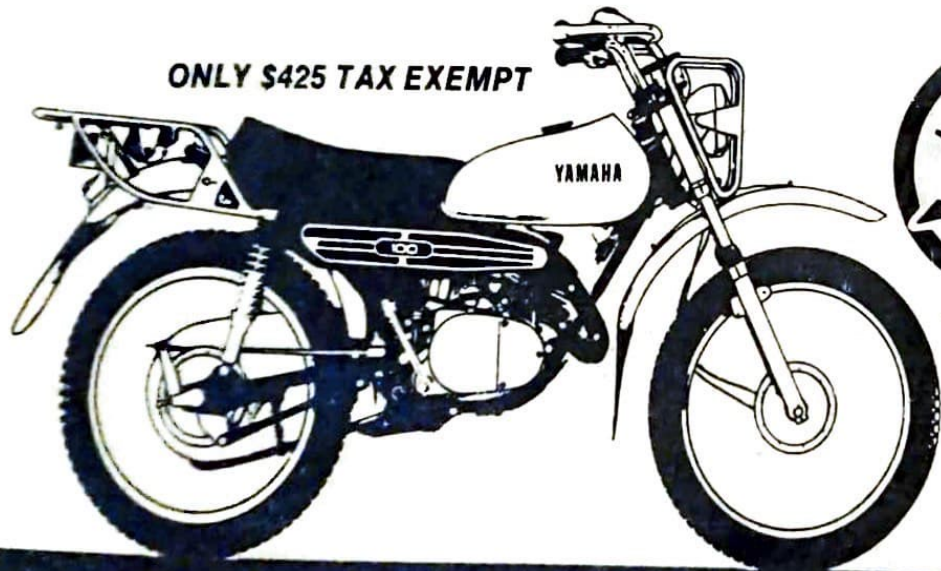

HEADLIGHT AND METER GUARD

Gives full protection to lights and instruments.

Yamaha AG100 AG Bike...born from the country it conquers.
