

For the new breed of farmer

A new breed of farm bike!

For the first time . . . a bike built specifically for Australian farmers. The Yamaha AG100 "ag bike". Designed tough, built tough for tough Australian farm use.

Features a no-nonsense five-speed box with gearing carefully chosen and tested by local farmers; super-strong frame and suspension to take any pounding; big seat, big controls for big men with big boots. That's what the new Yamaha AG100 is all about. But don't let us tell you what you want.

As well as the new AG100, there are six Yamaha trail bikes designed for tough farm use — all eligible for sales tax exemption. From 60 cc to 360 cc, you'll find a Yamaha to suit your farm needs.

YAMAHA AG100 ag bike

Ask for detailed catalogue and free demonstration on your property from your YAMAHA dealer, or the distributor for Victoria & Southern Riverina.
